

CFP Castlefield Sustainable UK Smaller Companies Fund

FACTSHEET - 30 APRIL 2024

INVESTMENT AIM:

To achieve capital growth over a period in excess of five years, from a portfolio of typically 30 to 50 listed or AIM-quoted UK smaller company shares, using the B.E.S.T proprietary responsible investment approach. To embed proper consideration of environmental, social and governance (ESG) factors as part of the investment selection process, to ensure that each investment is sustainable.

For more information about the fund's detailed investment objective and policy, please view the Key Investment Information Document, available on the ConBrio website [fund literature page](#).

WHY INVEST?

We offer values-based investing from the perspective of being a values-based manager. This includes active engagement with the companies in the fund on performance as well as on environmental, social and governance issues. That's why we're known as 'the thoughtful investor'.

High Conviction: Portfolio of identified best ideas of smaller UK listed companies in the bottom 10% of market capitalisation.

Fundamental Research: Identification of high quality companies with opportunity for growth, at a reasonable price, above the average of its peer funds.

Integrated Responsible Investment Process: Consideration of non-financial ESG factors alongside traditional financial analysis within the selection of suitable investments.

Focus on Sustainable Businesses: All investments must pass our screening policy. A minimum of 70% of weighted holdings align with our positive investment themes.

ENDNOTES

1. The Ongoing Charge Figure ('OCF') has been calculated as of 30/04/2024.
2. Comparator Benchmark.
3. 'Unclassified' holdings satisfy our negative screening but the percentage of assets managed in ESG or sustainability strategies is relatively low i.e. hotels, professional services consultancies
4. **Scope 1 emissions:** Emissions generated directly by the company, e.g. emissions from boilers or vehicle fleet. **Scope 2 emissions:** Indirect emissions, eg. from purchased electricity that the company uses. **Scope 3 Emissions:** Indirect emissions from sources not owned or controlled by the emitter, but which are attributable to the emitter. For example emissions from the supply chain or from employee commuting.

Scope 1 and 2 figures are provided by an independent third party, Impact Cubed, and comprise of estimated and actual data.

At present we only publish Scope 1 and Scope 2 data on our carbon footprint. This is due to the high levels of estimated data that companies use to calculate their scope 3 data. We rely on a third-party provider to estimate the Scope 3 data for our fund and have found that the data varies considerably from year to year and from provider to provider. As such, we have taken the decision to publish only Scope 1 and Scope 2 figures, as the data set is much more reliable and consistent and because companies have a longer track record in accurately monitoring and reporting on this data.

5. **Benchmark used by Impact Cubed for the impact analysis:**
UK Small Cap - Morningstar
More information on the benchmarks used is available on request.
6. **Examples of environmental good:** renewable energy, waste and environmental management, public transportation services.
7. **Examples of social good:** telecoms, educational services, healthcare.
8. **Examples of environmental harm:** oil and gas exploration, plastic production, coal mining.
9. **Examples of social harm:** tobacco, gambling and casino.

10. **Impact Cubed:** The information in this document relating to the sustainability of portfolios or securities which is the property of Impact Cubed IC (the "Information", "Impact Cubed") has been obtained from, or is based on, sources believed by Impact Cubed to be reliable, but is not guaranteed as to its accuracy or completeness. RISK WARNINGS

The CFP Castlefield Sustainable UK Smaller Companies Fund may have significant investments in smaller companies, in which there may be no established market for the Shares, or in relation to which the market may be highly illiquid. Because of this potential illiquidity in the investments this Fund may not be appropriate for all investors, including those who are not in a position to take a long-term view of their investment.

Shares in all Funds should generally be regarded as long term investments. For more information regarding the risks associated with investing in a fund please see the Prospectus.
